Texas Pathways Institute #6: *Teaching and Learning in a Texas Pathways Framework* **Data Collection Advance Work**

Use of Data Goal

- Each college attending the Texas Pathways Institute in November 14-16, 2022, will be asked to reflect on institutional data during Team Strategy Time. College teams will engage with several sets of data to inform the creation of action plans related to teaching and learning.

Data Collection

- Each college will collect and report on the number and proportion of students who completed 0 semester credit hours (SCHs) in Fall 2021, disaggregated by race/ethnicity and gender.

Data Notes

- The Texas Success Center recommends collecting the data from students enrolled after the census date, including those who withdrew and failed.
- The Texas Success Center recommends that each college define the denominator to be the population used in their internal student success work. For example, colleges may choose to include all credit students or first-time-in-college students. Please include the definition for your team's reference.
- The Texas Success Center will not be doing any cross-college comparisons. The collected data will be solely used by your college's Pathways team during Team Strategy Time.

Submission Guidelines

- Submit data as a simple document (e.g., excel or PPT slide). An example is provided below.
- Submit to the DOCUMENT CENTER on the [TPI6 Events Page](#) by November 7, 2022.
- Please bring copies to the event to use during Team Strategy Time.

Example: Visualization of the proportion of students earning 0 SCH in Fall 2021

Students Completing Zero Credits, College Name, Fall 2021 Semester
